

## PRESS RELEASE

**December 10 2009**

### **Talvor Launches New 6 Berth**

**Leading recreational vehicle manufacturer Talvor Motorhomes announced the release of a new 6 berth motorhome model, the Talvor Pinnacle today. Built specifically for the Australian and New Zealand rental markets, the vehicle is designed for high wear and tear rental environments and tough weather conditions.**

Designed in conjunction with the world's largest privately owned RV rental operator, Apollo Motorhome Holidays, the Talvor Pinnacle is only available for sale to registered rental companies. Apollo Group CEO Luke Trouchet said he was "very happy with the outcome of the design process. Initial feedback from trial rental clients is extremely positive."

Andrew Fisher, Talvor's General Manager, Vehicle Sales said he was "delighted to have the opportunity to work on the development of this vehicle with Apollo and other key clients.

"It is my belief that the Australian and New Zealand rental markets are crying out for a solid, affordable 6 berth motorhome. This is reflected by our initial orders and customer feedback," he said.

Talvor has already received several pre-orders for the Pinnacle Motorhome from rental organisations in Australasia, including over AUD\$30,000,000 in orders from Apollo. The Pinnacle's popularity has been attributed to its intelligent floor plan and quality fixtures and fittings.

The Talvor Pinnacle is built exclusively on Ford and VW chassis and offers a convenient walk through layout. Upholstered in attractive, durable fabrics throughout, the vehicle features three spacious double beds and two dinette lounge areas.

The motorhome offers a self contained living experience, with a shower, electric flush toilet, complete kitchen facilities and luxury extras such as a flat screen TV/DVD player and roll out awning all standard.

In addition to the newly released Pinnacle, Talvor boasts a full range of two berth, four berth and off road motorhomes and campervans custom designed for the rental market. Pricing varies on order quantity and vehicle type selected.

A market leader in recreational vehicle manufacturing, Talvor has grown to become the largest Australian recreational vehicle manufacturer in their class. The company's range of quality campervans and motorhomes is also available for retail sale in Australia and New Zealand.
