TALVOR MOTORHOMES EXPAND DEALER NETWORKS IN FAR NORTH QUEENSLAND AND TASMANIA

Australian-owned TALVOR MOTORHOMES has announced its expansion aligning itself with two new Premier Partner dealers in the bustling recreational vehicle touring markets of far north Queensland and Tasmania.

This will extend TALVOR MOTORHOMES' reach in the Australian retail RV market from up north in Townsville all the way along the east coast and down south to Hobart.

MotoCo RV Townsville will oversee sales of TALVOR recreational vehicles for the far north Queensland market while *Cruisin' Tasmania* will be the contact point in Hobart for people wishing to buy the Australian-made motorhomes, with a purpose-built showroom to open this month.

The network expansion means motorhome enthusiasts in these areas looking to purchase a quality TALVOR vehicle can deal face-to-face with local experts while being confident their new RV is being built by the best.

"By aligning ourselves with the very best RV retailers in Australia, we can be sure that potential TALVOR MOTORHOME owners are looked after by experts with a proven reputation for delivering the highest levels of service and customer satisfaction. That leaves us free to build the best RVs possible," says TALVOR MOTORHOMES chief executive Luke Trouchet.

TALVOR'S fleet of self-drive holiday adventure vehicles range from basic two berth campervans to luxurious motorhomes that can comfortably accommodate a family of six. Features vary between vehicles but all can be customised with a host of options and extras including top-of-the-range appliances, flat screen TVs, slide-out barbecues, outdoor awnings, and more.

TALVOR MOTORHOMES is the manufacturing arm of *Apollo Motorhome Holidays*, the Australian-owned RV rental business that is the largest privately owned operation of its type in the world. TALVOR opened with brothers Luke and Karl Trouchet at the helm in 2005, making 12 vehicles in its first year after demand from *Apollo's* hire customers who wanted to buy the RVs for themselves.

This year TALVOR will make more than 800 motorhomes, making it one of the largest manufacturers of recreational vehicles in the country. All recreational vehicles for the Australian market are made to the highest industry standards in TALVOR'S state-of-the-art Brisbane factory.

"The future is certainly looking very bright both for TALVOR and for our customers," Mr Trouchet said.

TALVOR MOTORHOMES is an accredited member of both the Recreational Vehicle Manufacturers Association of Australia and the Campervan and Motorhome Club of Australia.
