

## PRESS RELEASE

16 October 2008

# Talvor Motorhomes Launches New Website

**RV Manufacturer Talvor Motorhomes has unveiled a new website featuring extensive enhancements and upgrades. The freshly designed site ([www.talvor.com](http://www.talvor.com)) provides RV sales resources for clients and dealers of Talvor's quality campervans and motorhomes.**

With increased functionality and improved aesthetics, the site offers a range of images, cutaways, floor plans and specifications for Talvor's entire range of RVs. Products range from the compact Hitop campervan to the deluxe 4 berth Murana motorhome, which features an innovative bed lift system.

Talvor business manager Paul Truman said "we anticipate that our new website will prove an invaluable resource for RV enthusiasts,"

"The clean look and simple navigation system mean clients can access resources quickly and easily," he said. Further enhancements are planned for the site over the coming months.

Mr Truman said the new site is more comprehensive than many existing sites, including press resources, brochures and information regarding the company's manufacturing standards.

Talvor Motorhomes was originally founded to manufacture quality vehicles for Apollo Motorhome Holidays, the largest privately owned recreational vehicle operator in the Southern Hemisphere. Because of the brand's popularity with Apollo clients, Talvor has developed a range of retail specifications in conjunction with their retail partners.

The company's range of quality campervans and motorhomes is available for retail sale in Australia and New Zealand. Talvor offers a very popular and successful "try before you buy" option via the Apollo Motorhome Holidays rental fleet.
